Kuhio Park Choice Neighborhoods Initiative
Planning Process - Education

Resident and Community Engagement

A. Conduct Baseline Assessment
- Document key demographics
- Conduct resident survey
- Inventory existing supportive services for children and families
- Assess quality and capacity of early learning programs
- Collect data on local schools to assess performance and understand any current reform strategies
- Assess quality and capacity of out-of-school time programs
- Assess parent engagement

B. Establish Goals & Outcomes
- Analyze data from baseline assessment
- Conduct focus groups or identify secondary data sources to refine analysis as needed
- Identify needs, challenges and gaps in services
- Identify assets and opportunities
- Establish buy-in at targeted schools

C. Develop & Prioritize Strategies
- Research evidence based strategies and successful models
- Address needs related to early learning, school performance, out-of-school time programs, parent engagement and family supports
- Ensure a continuum of education services from birth to college and career
- Integrate other local efforts as appropriate
- Identify Education Lead

D. Adopt Transformation Plan
- Finalize Education Plan
- Establish structure, budget and timeline for implementation
- Identify data system and establish data sharing agreements to track metrics
- Secure leverage commitments
